Definitions

- i Underlying EBITDA (before leasehold costs) is defined as Operating Profit before exceptional items, share-based payments, corporate transaction costs, change in fair value of derivatives, gain/loss on investment properties, contingent rent and depreciation
- ii Adjusted Diluted EPRA EPS is based on the European Public Real Estate Association's definition of Earnings and is defined as profit or loss for the period after tax but excluding corporate transaction costs, change in fair value of derivatives, gain/loss on investment properties and the associated tax impacts. The Company then makes further adjustments for the impact of exceptional items, IFRS 2 share-based payment charges, exceptional tax items, and deferred tax charges. This adjusted earnings is divided by the diluted number of shares.
